- iPad
- Android tablet
- Chromebook

What software does the laptop need to have installed on it?

- Software will be provided for the device by the College. There is no software that needs to be purchased.

Do I need virus protection?

For Mac and PC users, up-to-date Anti-Virus Software is required to keep your child's own and other files safe. Various free Antivirus programs exist which are available for both Windows and Mac OSX. We have suggested some to consider:

- Sophos Home
- Avast Antivirus
- AVG AntiVirus
